

# Jefferson County Commission, Birmingham Alabama

## Principal Engineering Land Survey Inspector

Job Open Date

11/12/2017

Resumes may be emailed to Valarie Nealey@ [nealeyv@jccal.org](mailto:nealeyv@jccal.org). Additionally, you can apply at [www.jobsquest.org](http://www.jobsquest.org).

### Necessary Qualifications

The following Minimum Qualifications are required for this job. You must demonstrate possession of these qualifications by providing a detailed description of your related experience in the work history section of your application. Please note that replicating or restating these minimum qualifications or the information from the Personnel Board's job description as your own work experience will result in your disqualification. Please describe your work experience in your own words to represent the work you have performed that is related to the minimum qualifications for this job.

- Possession of a valid Driver's License.
- Certification as a Professional Land Surveyor from the Alabama Board Licensure for Professional Engineers and Land Surveyors.
- Supervisory experience (e.g., training, reviewing work).
- Field experience performing land surveying work (e.g., boundary surveys, property maps, land ties).
- Experience performing construction stakeouts (e.g., identifying layout points, GPS coordinates).

### Knowledge, Skills, and Abilities

- Knowledge of basic engineering and construction methods and terminology.
- Knowledge of field inspection procedures and techniques.
- Knowledge of safety procedures when working in and around traffic.
- Knowledge of construction procedures and layout related to roads, bridges, sewer lines, etc.
- The ability to pay close attention to detail in order to ensure the completeness and accuracy of work.
- The ability to manage and resolve conflicts with coworkers and/or customers.
- The ability to work collaboratively with a group or team in an effort to achieve a common goal.
- The ability to review work and evaluate it against established standards, procedures, laws, or codes to determine any discrepancies between how the work was performed and how it should be performed.
- Skill at operating a motor vehicle.
