

eRiskHub®

ACCORDING TO THE IDENTITY THEFT RESOURCE CENTER (ITRC), MORE THAN **760 BREACHES** EXPOSING MORE THAN **83 MILLION RECORDS** OCCURRED IN 2014.

When a breach event occurs, time is of the essence. With a good response plan in place and access to highly skilled third-party resources, a victimized organization can more efficiently and cost-effectively respond to and recover from a data breach.

The ACCA eRiskHub®, powered by NetDiligence®, is a cyber risk management portal that can help your County control cyber- and privacy-related losses. The portal provides tools and resources to help you understand the exposures, establish response plans, and minimize the effects of data breaches.

Key Features of the eRiskHub® Portal

- **Breach Response** – access to a Claims Representative who will engage a Breach Coach® and other hands-on assistance as needed to help you respond to a breach event
- **News Center** – public entity-focused cyber risk stories, security and compliance blogs, security news, risk management events and helpful industry links
- **Learning Center** – best-practices articles, whitepapers and webinars from the leading technical and legal practitioners
- **Risk Manager Tools** – includes free county-specific self-assessment tools, breach calculators, and state breach notification laws to assist in managing cyber risk
- **eRisk Resources** – a directory to quickly find external resources with expertise in pre- and post- breach disciplines

The eRiskHub® portal is an effective way to help your County combat cyber losses with minimal, controlled and predictable costs.
