SPECIFICATIONS FOR SKID STEER LOADER ATTACHMENTS

GENERAL

These specifications shall be construed as the minimum acceptable standards for attachments compatible with the skid steer loader specifications. Should the manufacturer's current published data or specifications exceed these standards, the manufacturer's standards shall be considered minimum and shall be furnished. All integral parts not specifically mentioned in the scope of these specifications that are necessary to provide complete working unit(s) shall be furnished. Additionally, the attachments offered for bid shall include all standard manufacturers' equipment. The attachments bid must be a new current production model and shall meet all EPA and other applicable standards at the time of manufacture.

The use of specific names or numbers in the specifications is not intended to restrict the bidder or any seller or manufacturer, but is intended solely for the purpose of indicating the type, size, and quality of equipment considered best adapted to the uses of counties participating in this joint bid.

Bidder is not required to bid on every attachment listed in this bid specification. Each attachment will be awarded individually to the lowest responsible bidder for that item.

BID SUBMITTAL FORM

Each bidder must submit his or her bid on the Bid Submittal Form included in the invitation to bid package. All written warranties to be submitted shall be attached to the Bid Submittal Form.

BID PRICE

The price bid for each attachment bid shall include all destination charges, delivery charges, title fees, rebates and all other applicable costs and refunds.

MANUALS

Each attachment shall be provided with one (1) copy of the owner/operator's manual for that attachment.

WARRANTY

Bidders shall submit a copy of the manufacturer's standard warranty along with a complete explanation of the warranty with their bid. All attachments must have (1) year warranty with no hour limit.
