

# BID SUBMITTAL FORM

## Debris Removal Services Bid – Region 4

Company Name: KDF Enterprises, LLC

Address: 370 Mountain View

Springville, AL 35146

Bid Submitted by: Michael Martin  
(Name of company representative)

Title: CFO e-mail address: marty@kdflc.com

Phone: 812-550-4222 Fax: 404-506-9849

<b>BID PRICING</b> <b>Alabama County Joint Bid Program</b> <b>Disaster Debris Removal Bid for Region <u>4</u></b>					
ITEM	Est. QTY	DESCRIPTION	UNITS	UNIT PRICE	AMOUNT
001.		Removal and Disposal of Eligible Vegetative Debris at Debris management site (see note no. 1)			
	N/A	Haul Range – 0 to 15 miles	Cubic Yard	\$7.28	
	N/A	Haul Range – 16 to 30 miles		\$7.68	
	N/A	Haul Range – 31 to 60 miles		\$8.12	
	N/A	Haul Range – Greater than 60 miles		\$8.61	
002.		Removal and Disposal of Eligible Construction & Demolition (C&D) debris to approved Landfill (see note no. 1)			
	N/A	Haul Range – 0 to 15 miles	Ton	\$68.92	
	N/A	Haul Range – 16 to 30 miles		\$72.63	
	N/A	Haul Range – 31 to 60 miles		\$77.98	
	N/A	Haul Range – Greater than 60 miles		\$81.72	
003.	N/A	Air Curtain Burning Vegetative Debris At Debris management site (Including cost of Ash Removal & Disposal)	Cubic Yard	\$4.12	
004.	N/A	Chipping or Grinding Debris at Debris management site (Including cost of Reduced Debris Removal & Disposal)	Cubic Yard	\$6.89	
005.	N/A	Stump Extraction (see note no. 2) Diameter – larger than 24" to 36"	Each	\$115.00	

	N/A N/A	Diameter – larger than 36" to 48" Diameter – larger than 48"	Stump	<u>\$155.00</u> <u>\$250.00</u>	<u>                    </u> <u>                    </u>
006.	N/A	Stump Fill Dirt (Fill dirt for stump holes after removal)	Cubic Yard	\$15.00	
007.	N/A N/A N/A N/A N/A	Flush Cutting Hazardous Trees (see note no. 3 and 4) 6" – 12" diameter 13" – 24" diameter 25" – 36" diameter 37" – 48" diameter 49" diameter and up	Each Tree	<u>\$25.00</u> <u>\$65.00</u> <u>\$125.00</u> <u>\$210.00</u> <u>\$300.00</u>	<u>                    </u> <u>                    </u> <u>                    </u> <u>                    </u> <u>                    </u>
008.	N/A	Trees with Hazardous Hanging Limbs (2" diameter limbs and up) Hazardous hanging limb removal	Each Tree	\$72.80	
009.	N/A	Freon Recovery and Recycling	Each Unit	\$25.00	
010.	N/A	Pick up and Disposal of "White Goods"	Each Unit	\$25.00	
011.	N/A	Dead Animal Collection, Transport and Disposal	Per Pound	\$4.21	
012.	N/A	Electronic Waste	Each Unit	\$25.00	
013.	N/A	Household Hazardous Waste (HHW) HHW Removal and Disposal	Per Pound	\$4.87	
014.	N/A	Waterway Debris Removal	Per Cubic Yard	\$28.10	
015.	N/A	Sand and Silt Removal	Per Cubic Yard	\$10.00	
016.	N/A	Vehicle Removal	Each	\$150.00	
017.	N/A	Vessel Removal (Land)	Linear Foot	\$23.82	
018.	N/A	Vessel Removal (Marine)	Linear Foot	\$41.00	
019.	N/A	Biowaste Removal	Pound	\$7.90	

Note No. 1: Haul distances shall be calculated using a straight line distance from the loading area to the nearest approved reduction site or landfill.

Note No. 2: Stump/tree diameter measured 2 feet up from ground line.

Note No. 3: Flush cutting is defined as level to the ground line.

Note No. 4: Tree diameter measured 4.5 feet up from ground line.

**Stump Conversion Table  
Diameter to Volume Capacity**

The quantification of the cubic yards of debris for each size of stump in the following table was derived from FEMA field studies conducted throughout the State of Florida during the debris removal operations following Hurricanes Charley, Frances, Ivan and Jeanne. The following formula is used to derive cubic yards:

$$\frac{[(\text{Stump Diameter}^2 \times 0.7854) \times \text{Stump Length}] + [(\text{Root ball Diameter}^2 \times 0.7854) \times \text{Root Ball Height}]}{46656}$$

0.7854 is one-fourth Pi and is a constant.

46656 is used to convert inches to Cubic Yards and is a constant.

The formula used to calculate the cubic yardage used the following factors, based upon findings in the field:

- Stump diameter measured two feet up from ground
- Stump diameter to root ball diameter ratio of 1:3.6
- Root ball height of 31"

By initialing beside each item set out below and signing this Bid Submittal Form, the bidder affirms that he or she understands the bid pricing requirements acknowledges that each of the following was taken into account in determining the above-stated bid prices:

	Bidder's Initials
The removal, pickup and disposal of stumps will be paid on the cubic yard basis, regardless of size or whether or not the stumps require extraction by the contractor	<u>WCB</u>
Payment for the construction of the hazardous household waste containment area and for the removal and disposal of such waste shall be included in the unit price for hazardous household waste removal and disposal	<u>WCB</u>
The bid price for waterway debris removal shall include the additional labor and equipment costs required to retrieve the debris from the waterway	<u>WCB</u>
Payment for portable restroom facilities and payment for containment towers shall be included in the line items for Vegetative Debris Removal and Construction and Demolition Debris Removal	<u>WCB</u>
Payment for the preparation and operation of all vegetative debris management sites shall be included in the unit price for removal and disposal of eligible vegetative debris	<u>WCB</u>
Debris stockpiled at a debris reduction site prior to a "No Burn" order shall be paid at the unit price for open burning	<u>WCB</u>
Removal and recycling of freon from appliances and disposal of white goods shall be paid at the unit price for freon recovery and recycling	<u>WCB</u>
That the successful bidder will be responsible for all equipment rental and landfill and permit fees required for a project in any activating county in the region	<u>WCB</u>

In addition to the above-stated bid prices, by initialing below and signing this Bid Submittal Form, the bidder acknowledges that he or she has attached documentation to demonstrate ability to meet each of the following project requirements:

	Bidder's Initials
Ability to activate simultaneously in each county in the region <i>Identify documentation attached</i> _____ TAB 4	<u>WCB</u>
Ability to perform services as required by bid specifications <i>Identify documentation attached</i> _____ Tab 5	<u>WCB</u>
Ability to activate adequate and properly trained personnel to perform services in compliance with AEMA, FEMA, and FHWA guidelines to ensure reimbursement to the fullest extent possible, if reimbursement is available <i>Identify documentation attached</i> _____ Tab 1 & 3	<u>WCB</u>
Record of past performance on other debris removal services contracts in compliance	

with AEMA, FEMA, and FHWA guidelines

Identify documentation attached \_\_\_\_\_ Tab 2

Financial ability to perform services required in an activating county under the payment procedures set out in the bid specifications

Identify documentation attached \_\_\_\_\_ Tab 6

Proof of general and professional liability insurance to cover any damages resulting from services provided by the successful bidder, including any denial of reimbursement due to the actions or inactions of the debris removal services contractor

Identify documentation attached \_\_\_\_\_ Tab 6

Ability to secure a payment and performance bond upon receipt of a Notice to Proceed by any or all of the counties in a region

Identify documentation attached \_\_\_\_\_ Tab 6

Ability to post a payment and performance bond at the time of execution of the contract as required in the bid specifications

Identify documentation attached \_\_\_\_\_ Tab 6

**By initialing below and signing this Bid Submittal Form, the bidder also acknowledges and agrees to each of the follow:**

**Bidder's Initials**

That the bid submitted meets the bid specifications

That, if determined to be the lowest responsible bidder, he or she will execute a contract with the awarding authority for this region on behalf of all counties in the region

That the bid prices set out on this Bid Submittal Form will be honored for all counties in the region for the period from Nov. 1, 2018 to Oct. 31, 2019

That the company will comply with all requirements and/or requests to confirm compliance with Title 2 U.S. Code of Federal Regulations, Part 200; AEMA, FEMA, and FHWA guidelines and regulations; and all applicable local, state and federal law.

That the company has the capability to provide services to all counties in region simultaneously

That the company listed above will respond to any Notice to Proceed within the time frame and under the procedures set out in the bid specifications

That the bidder will provide all sing in the amounts and at the times required in the bid specifications

That the company will comply with the payment procedures set out in the bid specifications

Signature of company representative submitting bid:

CFO

# **BID SPECIFICATIONS**

## **INTRODUCTION**

The Association administers the Alabama County Joint Bid Program. This program is a service the Association provides to its members that allows for joint bidding on certain equipment and services for the individual counties. The program, which fully complies with the Alabama competitive bid law, allows Alabama's 67 counties the option of purchasing goods and services which have been competitively bid as required by law without the need to individually bid those goods and services. The program is strictly voluntary meaning that no participating county is required to purchase goods and services available under the program, but the program frequently allows counties the best available goods and services at the best available price.

Natural disasters in Alabama have shown the need to have pre-event debris removal services contracts available for each county to provide debris removal activities necessary as a result of a disaster within one or more counties in Alabama. Therefore, the Association, through the Alabama County Joint Bid Program, has developed this bid offering to award contracts for these services in the seven separate geographical regions around the state as identified in the Invitation to Bid. All counties named in this bid offering have adopted a resolution to participate in this program for their region and to allow the awarding authority for their region to award a bid and execute a contract on behalf of the counties in that region and only counties in that region.

The Association staff has worked with the AEMA and a committee of county emergency management agency directors and county engineers to develop these bid specifications in compliance with AEMA, FEMA guidelines and regulations, FHWA guidelines and regulations, and applicable federal laws and regulations. The primary purposes of this bid offering for regional debris removal and disposal services are to contract for:

- (1) the removal of all eligible disaster-generated debris from a county's right of way as directed by the activating county and
- (2) the proper disposal of all eligible disaster-generated debris

While it is anticipated that these debris removal services will most frequently be utilized in the event of a federal or state-declared emergency or disaster, the availability of these services shall also apply for non-declared disaster events.

Additionally, while most activities will take place in the unincorporated areas of the county, services may be performed within a municipality at the direction of an activating county if the county and the municipality have entered into a written memorandum of understanding that meets FEMA guidelines and regulations and federal laws and regulations, whereby the county agrees to assume responsibility for the removal of disaster-related debris on behalf of the municipality.

It is a requirement of this bid offering that the successful bidder be able to provide the services set out in these bid specifications in full compliance with all AEMA, FEMA and FHWA guidelines and regulations and federal law and regulations applicable at the time work is performed to ensure reimbursement, if reimbursement is available. Any conflict with the language included in these specifications shall be construed to comply with FEMA requirements.

The debris removal services contractor will work closely throughout the project with designated county personnel and/or the monitoring services contractor. Both the activating county and the monitoring services contractor will provide the debris removal services contractor with names, contact information, and program areas of appropriate county and monitoring services contractor personnel.

### **SERVICES ACTIVATION PROCEDURES**

Any county within a region as identified in the Invitation to Bid shall be authorized under the terms of the contract between the region's awarding authority and the successful bidder (hereinafter sometimes referred to as "debris removal services contractor" or "contractor") to activate the contract in the event of a disaster in the county warranting the need for debris removal and/or disposal activities. No county in a region shall be required to activate the services of the debris removal services contractor. However, in the event a county within the region desires to utilize the services of the debris removal services contractor, the county will forward to the contractor a written Notice to Proceed on a form prepared for that purpose.

The debris removal services contractor will be required to respond to the Notice to Proceed within 24 hours of its receipt and to activate its forces as soon as weather allows as directed by the activating county. Once activated, the debris removal services contractor shall provide the services set out in these bid specifications to the extent necessary to meet the needs of the county.

The debris removal services contractor must be able to provide the minimum services included in these bid specifications upon activation and must be prepared to place project personnel, including a project manager, in the activating county within 24 hours of receipt of the written Notice to Proceed. **Each bidder shall include with his or her Bid Submittal Form complete and adequate contact information for transmitting the Notice to Proceed to the debris removal services contractor.** Project communication contacts for the activating county shall be detailed in the Notice to Proceed delivered by the activating county. The debris removal services contractor shall be responsible for coordinating with these designated county representatives to ensure compliance with the 24 hour mobilization requirement is met.

Upon receipt of the Notice to Proceed but prior to commencing any debris removal or disposal activities, the debris removal services contractor shall provide the activating county with a work plan for all activities to be conducted during the project. The initial work plan shall detail a 7 and 14 day projection of activities. The plan shall be updated every week throughout the project period. The activating county may prioritize areas where the contractor shall perform specified activities.

All activities conducted for the activating county shall be performed during daylight hours. The contractor may work seven days per week, including holidays. However, the activating county may suspend all operations due to inclement weather.

### **TRAINING REQUIREMENT**

The debris removal services contractor shall provide all employees and contract labor, including the project manager, with adequate training concerning safety, eligibility for reimbursement, if reimbursement is available, and disaster specific information. All training shall meet AEMA, FEMA, and FHWA requirements, and where possible or required by AEMA, FEMA, or FHWA rules or regulations, shall involve personnel from either or both of these agencies. Proof of training shall be provided to the activating county when

responding to a Notice to Proceed. **The bidder must demonstrate in his or her bid documents that all workers will be adequately trained prior to performing any work on the project.**

### **LOCATION OF DEBRIS REMOVAL SITES**

The debris removal services contractor shall be required to remove debris from all areas identified by the activating county as included in the Notice to Proceed and other direction from the activating county. This may include the removal of debris from county roads, federal aid highways, state roads, county-maintained public property, and/or drainage easements. This may also in some instances include the removal of debris from private property, but only if the disaster triggers the activation of private property debris removal (PPDR) and only if specifically authorized by the activating county. The activating county may limit the scope or type of debris to be removed by the contractor. The debris removal services contractor shall not perform any work in an area that has not been specifically assigned to the contractor by the activating county.

The contractor shall make as many passes through the locations where debris is to be removed as are necessary and as directed by the activating county. There shall be up to three passes with a minimum of one weekend between each pass; provided, however, the contractor shall complete each pass over all locations in the county prior to beginning the next pass. The contractor shall not move from one designated work area to another designated work area without prior approval from the activating county. The scheduling of passes will be coordinated and approved by the designated county representative.

### **DEBRIS LOCATION SITE PREPARATION AND MANAGEMENT**

The debris removal services contractor shall be responsible for all vehicular and pedestrian traffic control at all debris removal location sites, which shall be accomplished in conformance with the latest edition of the Manual on Uniform Traffic Control Devices. The contractor shall provide all flag persons, signs, traffic control and other equipment to necessary personnel working at the site. At least one flag person shall be posted at each approach to the work area.

Closure or blocking of public streets and other rights of way shall not be permitted unless prior arrangements have been made with the activating county and the closures are coordinated with county personnel as directed by the activating county.

Prior to performing any work at a debris removal location site, the debris removal services contractor shall contact Alabama Line Locate and any other utility company for the purpose of identifying utility lines and components in advance of work.

### **SCOPE OF SERVICES**

**The bidder must demonstrate in its bid documents that the debris removal services it shall be capable of performing includes each of the following services in compliance with all AEMA, FEMA, and FHWA guidelines and regulations and applicable federal law and regulations to any of the counties in the region for which the contract is awarded.** As there may be a need for simultaneous performance of services of the contract in more than one county in the region at the same time, the successful bidder must demonstrate the ability to provide each of these services simultaneously on a regional basis. The scope of services as described below shall be considered minimum standards to meet

in submitting bids and/or providing services in the event the bidder is awarded the regional debris removal services contract under this bid offering.

Bidder shall demonstrate that it is experienced and knowledgeable in handling and executing disaster debris removal in compliance and consistent with the policies, publications, guidelines and regulations of the AEMA, FEMA, and FHWA , and FHWA and all applicable federal law and regulations in effect at the time of the work being performed. Throughout these bid specifications, any reference to FEMA shall also mean FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved. The debris removal services contractor shall further demonstrate compliance with, including but not limited to, the following:

FEMA Public Assistance Program and Policy Guide (January 2018)  
FEMA Procurement Disaster Assistance Team (PDAT) Field Manual  
Title 2 U.S. Code of Federal Regulations, Part 200  
41 C.F.R. Part 60-1.4 Equal Opportunity Clause  
29 C.F.R. §5.5(b) Contract Work Hours and Safety Standards Act  
Clean Air Act and Federal Water Pollution Control Act  
2 C.F.R. part 180 and 2 C.F.R. part 3000 Suspension and Debarment Compliance  
31 U.S.C. § 1352 and 44C.F.R. Part 18 Byrd Anti-Lobbying Amendment (as amended)  
Section 6002 Solid Waste Disposal Act  
31 U.S.C. Chapter 38 Program Fraud and False or Fraudulent Statements or Related Acts  
Emergency Relief Manual (Federal-Aid Highways) (May 2013)  
FEMA and Federal Requirements for Access to Records  
Prohibition on Use of Department of Homeland Security Seal, Logo, and Flags  
Compliance with Federal Law, Regulations and Executive Orders for FEMA Financial Assistance  
State of Alabama Administrative Regulations for Public Assistance for State Managed Events in  
Compliance with Alabama Act 2009-342

In addition to the compliance requirements above, the debris removal services contractor shall comply with requirements under **2 C.F.R. §200.321**. The awarded contractor agrees, if subcontracts are to be let, to assure that minority businesses, women's business enterprises and labor surplus area firms are used when possible. The affirmative steps must include:

- a. Placing qualified small and minority businesses, and women's business enterprises on solicitation lists;
- b. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- c. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
- d. Establishing delivery schedules, where the requirement permits, which encourages participation by small and minority businesses, and women's business enterprises;

- e. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Except by written consent and agreement of the activating county, the debris removal services contractor is expected to complete all activities for an activating county within 180 days of the date of a declaration of emergency or disaster or, if there is no emergency or disaster declaration, within 180 days of the issuance of the Notice to Proceed. All work, including site restoration prior to close-out, shall be completed within 60 calendar days after receiving notice from the activating county that the last load of debris has been delivered unless there is a written extension of time granted by the activating county. No changes in scope of work or time frames for completion will be allowed except as specifically authorized in the contract executed between the debris removal services contractor and, where applicable, approved by AEMA, FEMA, and FHWA. The contract shall provide for the assessment of liquidated damages in the amount of \$5000 per calendar day for each day in which contract activities extend beyond the maximum allowable time established.

#### **Project Management and Work Forces**

The debris removal services contractor shall provide all management, supervision, labor, materials, and equipment necessary for the efficient and effective removal, disposal and reduction of all eligible debris. This shall include, at a minimum, a project manager, an adequate number of workers acting under the direction of the project manager, and proper and sufficient equipment and materials to accomplish the functions of the contract. All workers, including contract workers, shall report to and work under the supervision of the project manager.

**The bidder must demonstrate in his or her bid documents the ability to provide adequate and properly trained personnel for this function within 24 hours of receiving a Notice to Proceed.** The debris removal services contractor may use contract labor for this function and is encouraged to employ local residents and subcontractors in the activating county. However, the bidder shall document in his or her bid that his or her company can, through the use of company personnel and equipment, remove at least 30% of debris utilizing the bidders own equipment and personnel within the 180 day time frame for completion of the project.

#### **Project Manager**

The debris removal services contractor shall have a project manager assigned to the county at the time of contract activation and shall provide the activating county with adequate contact information regarding this person in its initial response to the Notice to Proceed. **The bidder must demonstrate in his or her bid documents that he or she will be able to assign a project manager to an activating county at the time of responding to a Notice to Proceed and that said project manager will be able to perform all duties set out herein.** The project manager shall be someone with authority to handle all issues which arise throughout the project period. He or she shall be knowledgeable and experienced in handling issues with debris removal activities and/or AEMA, FEMA, and FHWA related issues.

Additionally, the project manager shall perform, at a minimum, each of the following duties:

- (1) meet with designated personnel from the activating county immediately upon receipt of the Notice to Proceed to discuss the scope of services expected

- (2) remain within the activating county during all work hours throughout the length of the project
- (3) schedule and coordinate daily debris removal activities with designated county personnel and debris monitoring personnel and provide planning for future operations pertinent to the specific event requiring the debris removal activities
- (4) attend and participate in meetings and press conferences with designated county personnel as determined necessary by the activating county
- (5) oversee and supervise all debris removal and disposal activities throughout the project
- (6) regularly communicate with designated county and monitoring services contractor personnel to keep the county informed of all aspects of the debris removal and disposal activities
- (7) provide input to the activating county to improve efficiency of collection and removal of debris
- (8) identify, address and troubleshoot potential problems and questions that could impact all elements of the debris removal and disposal process, including but not limited to work area safety and the eligibility of reimbursement for removal of certain types of debris

#### **Safety Officer**

The debris removal services contractor shall have a safety officer assigned to a project in any activating county to ensure work site conditions and equipment are safe and operable and that all workers are performing all activities in a safe manner. The safety officer may be the contractor's project manager, but he or she shall be able to dedicate the appropriate time to issues of safety as deemed necessary by the activating county to ensure safe work conditions and practices in all work areas. The safety officer shall be available in person to designated county personnel at any time during the project. The activating county may require the contractor to appoint a new safety officer if the county determines the contractor is not adequately addressing safety concerns. The activating county may also cease work of the contractor if it determines safety concerns are not being addressed in a timely and sufficient manner.

#### **Environmental Permits, Fees, and Protections**

The debris removal services contractor is responsible for obtaining all necessary and applicable environmental and regulatory permits prior to commencing any debris removal or disposal activities. Copies of all documentation evidencing proper permitting and approval shall be provided to the activating county before any activities begin.

The debris removal services contractor shall be responsible for dust control and all other environmental safeguards and protections as necessary. All such safeguards and protections shall comply with federal and state laws and regulations regarding same.

#### **Eligible Debris Removal**

The debris removal services contractor shall be responsible for clearing, separating, and removing any and all eligible debris from all locations identified by the activating county using the procedures set out in these bid specifications. Services shall include at a minimum each of the following:

- (1) Examining and sorting debris into separate categories
- (2) Loading the sorted debris onto appropriate equipment hauling and
- (3) Hauling the eligible, sorted debris to an appropriate, approved reduction and/or disposal site

The debris removal services contractor shall only be authorized to clear, separate, and remove eligible debris as directed by the activating county and shall only be paid by the activating county for removal of eligible debris. The debris removal services contractor shall document ineligible debris left at a debris

removal location and shall notify the designated county representative immediately of any ineligible debris placed at the right of way for collection.

"Eligible debris" is all disaster-related debris located on county roads, rights of ways, federal aid highways, state roads, county-maintained public property, and/or drainage easements provided:

- (1) The debris complies with current or future AEMA, FEMA, and FHWA debris eligibility guidelines and regulations
- (2) The removal of the debris is the legal responsibility of the activating county and
- (3) The debris presents an immediate health and safety threat to the general public or to the users of an eligible public facility

The types of eligible debris which the contractor may be required to remove include, at a minimum, each of the following:

- (1) Trees and limbs
- (2) Stumps
- (3) Construction and demolition debris
- (4) Scattered displaced debris
- (5) Household hazardous waste
- (6) Vegetative debris
- (7) White goods
- (8) Electronic waste
- (9) Waterway debris
- (10) Sand and silt
- (11) Vehicles
- (12) Vessels
- (13) Biowaste

There are special rules and procedures for the removal and/or disposal of certain types of eligible debris as set out in these bid specifications. The debris removal services contractor shall at all times comply with these procedures and all AEMA, FEMA, and FHWA guidelines and regulations related to same.

### **Debris Removal Procedures**

The debris removal services contractor shall perform all debris removal services necessary as directed by the activating county. The activating county may limit the services to be performed by the debris removal services contractor. All work shall be accomplished in a safe manner in accordance with state and county standards and guidelines and all debris removal work areas shall be left clear of debris and as clean as reasonable and practical before the contractor leaves the area.

The activating county may periodically inspect any and all debris removal locations, verify quantities of debris collected, and review debris removal activities of the contractor.

All work shall be conducted in such a manner that will not interfere with the disaster response and recovery activities of federal, state, and local governments or agencies, or of any public utilities. The contractor shall only perform services authorized by the activating county. Additionally, the contractor shall not enter onto private property for debris removal activities conducted on behalf of the activating county and shall not solicit work from private citizens or others while performing services for the activating county.

The following procedures will be utilized by the debris removal services contractor for each of the categories of debris and work set out below.

#### **Trees, Limbs, and Stumps**

The debris removal services contractor shall be responsible for cutting down and removing hazardous trees, limbs, and stumps that qualify as eligible debris under AEMA, FEMA, and FHWA guidelines and regulations. Prior approval of AEMA, FEMA, and FHWA may be required.

Eligible, approved uprooted trees with exposed roots shall be removed in their entirety with the stump hole back-filled with approved material. Holes present as a result of uprooted trees in the public right of way shall be back-filled to ground level with approved soil.

Partially uprooted stumps on improved public property or rights of way with a 2 feet or larger in diameter measured 2 feet above the ground that create an immediate threat to life, public health, and safety shall be removed. Stumps which must be extracted by mechanical means shall be addressed on a case-by-case basis by the activating county and, where applicable, only after AEMA, FEMA, and FHWA has approved the extraction. Stumps that are not eligible for reimbursement shall be flush cut to the ground. Stumps shall be hauled separately from other debris and individually measured by the activating county for conversion to cubic yards using the attached Stump Conversion Table.

Leaning or fallen trees which extend onto the public right of way or roadway from private property and which are at risk of falling onto the roadway or across a fence line shall be removed by cutting the tree at the property line or at the edge of the right of way. Only that part of the debris that lies within the right of way shall be removed. Standing, dead trees are **not** eligible for removal.

Hazardous tree limbs two inches or greater in diameter that are still hanging in the tree (tree hangers) and are threatening a public use area, such as a trail, sidewalk, road, etc. are considered eligible debris and shall be cut down.

**Construction, Demolition, and Scattered Displaced Debris**

The debris removal services contractor shall remove construction, demolition, scattered displaced debris, and homeowners' debris placed within the activating county's right-of-way areas. Construction and household debris should not be mixed with vegetative debris or appliances, hazardous and toxic waste. Household garbage shall **not** be collected.

**Household Hazardous Waste (HHW)**

Material classified as household hazardous waste shall be segregated from all other debris using a method which will allow the remaining non-household hazardous waste debris to be processed separately. Designated county personnel shall be notified immediately when household hazardous waste is found. All household hazardous waste debris will be moved and placed in the designated household hazardous waste containment area at the appropriate disposal site.

**Vegetative Debris**

The debris removal services contractor shall perform vegetative debris reduction by open burning whenever possible. Preparation and operation of the site for burning shall meet all safety standards and recommendations by local and state officials with applicable responsibilities. Ash from the burning of the vegetative debris shall be tested as prescribed by the appropriate regulatory agency. If test results allow, ash shall be land-applied to the burning site and incorporated into the soil by tilling. However, if the test results require, the ash from burning shall be loaded and transported to an approved landfill for disposal. In the event regulatory restrictions or other circumstances preclude open burning as the method of vegetative debris reduction, the contractor shall accomplish vegetative debris reduction by air curtain incineration, chipping, and/or grinding as directed by the activating county.

**White Goods**

The debris removal services contractor shall collect and dispose of eligible white goods in compliance with all applicable federal, state and local laws and regulations. White goods include appliances such as refrigerators, freezers, stoves, washers, dryers, hot water heaters, and dishwashers.

**Electronic Waste**

The contractor shall collect and dispose of eligible electronic waste in a manner complying with all applicable federal, state and local laws and regulations. Electronic waste means electronic products placed at the right of way, including but not limited to televisions, computers, computer peripherals (e.g., monitors and keyboards), audio and stereo equipment, VCRs, DVD players, video cameras, telephones, cellular phones and other wireless devices, fax and copy machines, and video game consoles.

**Waterway Debris Removal**

The debris removal services contractor shall be responsible for the removal of debris from canals, rivers, creeks and streams. Once the debris is retrieved and measured by cubic yard, then disposal and payment for the disposal will depend on the type of debris retrieved.

**Sand and Silt Removal**

Where applicable, the debris removal services contractor shall be responsible for the recovery, loading, and the disposal of sand, silt, mud, dirt and rock deposited on the activating county's right of way or public property.

**Vehicle Removal**

The debris removal services contractor shall be responsible for the recovery, loading, determination of ownership, and disposal of vehicles deposited on the activating county's right of way or public property.

**Vessel Removal**

The debris removal services contractor shall be responsible for the recovery, loading, determination of ownership, and disposal of vessels deposited on the activating county's right of way, waterways, or public property.

**Biowaste**

The debris removal services contractor shall be responsible for the removal and disposal of waste capable of causing infection to humans such as animal waste, human blood and pathological waste. Material which is found to be classified as biowaste shall be reported immediately to designated county personnel. This material shall be segregated from the remaining debris using a method which will allow the remaining non-biowaste debris to be processed separately.

**Debris Disposal Sites and Procedures**

The disposal of all debris removed from a debris location site shall be the responsibility of the debris removal services contractor. All debris shall be disposed in compliance with applicable federal, state, or local laws, regulations, or guidelines providing for proper disposal of the particular type of debris.

The debris removal services contractor shall be responsible for securing staging, reducing and disposal sites for the disposal of all debris collected, with one site identified as the primary debris management site. The contractor shall submit to the activating county a listing and location map for all proposed staging, reducing and disposal sites. All disposal sites, including the primary debris management site, shall be approved in writing by the activating county prior to use of any disposal site.

The contractor shall be responsible for obtaining all necessary and applicable permits for each disposal site and for payment of any and all landfill disposal fees necessary for proper final disposal of collected debris. The contractor is also responsible for returning the primary debris management site to pre-disaster conditions upon project completion.

The contractor shall provide inspection towers at all debris management sites and at all approved disposal sites. This tower shall be constructed such that debris removal monitors can see the bed when empty and fully view the debris load (at least 10 feet above the existing ground surface), for the purpose of establishing the loaded volume. The inspection tower shall be constructed to meet all local, state and federal safety requirements and be constructed to the U.S. Army Corp of Engineers' (USACE) standards for inspection towers. The contractor shall remove and dispose of the inspection towers following completion of the debris removal.

The contractor shall provide portable restroom facilities at all approved disposal sites.

The debris removal services contractor shall construct a household hazardous waste containment area consisting of an earthen berm with a non-permeable liner at all disposal sites where such debris will be transported. The containment area shall be covered at all times with a non-permeable cover.

The debris removal services contractor shall be responsible for managing all disposal sites, including the primary debris management site. The daily operation of all disposal sites shall coincide with hauling operations during daylight hours, 7 days per week. Management and execution of burning operations will be 24 hours per day, 7 days per week, unless directed otherwise by designated county personnel or as otherwise required by law or regulation.

Other management responsibilities will include at a minimum:

- (1) providing all weather road access for debris trucks,
- (2) providing dust control,
- (3) providing fire prevention treatments to the site,
- (4) providing site security,
- (5) managing the volume of debris in an orderly and safe manner, and
- (6) stockpiling of material.

### **RESPONSIBILITY FOR DAMAGE AND VIOLATIONS**

The debris removal services contractor shall exercise due care in the performance of all activities to minimize any damages to trees, shrubs, landscaping and public or private property. The contractor shall be responsible for damages to any property caused by its equipment or workers at no expense to the activating county. The activating county shall be notified immediately of any damages which occur during debris removal activities conducted by the contractor.

The debris removal services contractor shall be responsible for any and all corrective action required in response to any notices of violations issued by any federal, state, or local agency as a result of the contractor's actions while conducting activities on behalf of the activating county. All corrective actions shall be taken at the contractor's expense. Additionally, the contractor shall be solely responsible for the payment of any fines or penalties resulting from any such violations.

### **EQUIPMENT**

All equipment to be utilized by the debris removal services contractor shall comply with all applicable federal, state, and local rules and regulations and shall be inspected and approved by the activating county prior to use. The debris removal services contractor shall provide all labor and materials necessary to fully operate and maintain all equipment to be utilized. Additionally, all equipment must meet the following minimum standards:

- (1) All loading equipment shall be able to operate from the road using buckets and/or booms and grapple devices to remove and load the debris
- (2) All trucks and other equipment shall be equipped with back up alarms
- (3) Any truck or trailer used to haul debris must be mechanically loaded and be capable of rapidly dumping its load without the assistance of other equipment
- (4) "Hand loading" of trucks and trailers is prohibited
- (5) Sideboards or other extensions to the bed of trucks shall meet all applicable rules and regulations, shall cover the front and both sides, and shall be constructed in a manner to withstand severe operating conditions
- (6) Sideboards shall be constructed of 2" by 6" boards or greater and not extend more than two feet above the metal bedsides

- (7) All trailers shall have a metal-framed exterior and a minimum of 5/8" plywood (not wafer board) interior walls
- (8) All equipment used to haul debris shall be equipped with a tailgate that will effectively contain the debris during transport and permit the truck to be filled to capacity
- (9) Plastic webbing is not acceptable for a tailgate
- (10) All hauling equipment shall be measured and marked for its load capacity
- (11) Loading equipment shall be rubber-tired and sized properly to fit loading conditions

All trucks and other heavy equipment utilized by the contractor shall be equipped with signs attached to both sides of the equipment which contain the following information:

- (1) Company Name
- (2) Truck Number
- (3) Cubic Yardage
- (4) Inspector's Name and Date

Magnetic signs are not permitted.

The debris removal services contractor shall allow inspection by the activating county of all trucks, trailers, or containers that will be used for hauling debris prior to commencing any debris removal activities and shall notify the activating county each time a new truck, trailer or container is to be used. Each truck or trailer shall be measured to determine the load capacity, which capacity shall be clearly displayed on the truck or trailer at all times. The contractor shall not allow the capacity of debris loaded on any truck or trailer to exceed 100% of the measured volume. The activating county may re-measure all equipment at any time.

If the debris removal services contractor plans to rent equipment for any of the debris removal activities set out in these bid specifications, he or she shall provide the activating county with an Equipment Rental Schedule, which shall include operators for initial emergency clearing of roads, streets, and public rights of way. All hourly equipment rates shall include the cost of the operator, supervision, maintenance, fuel, repairs, overhead, profit, insurance, and any other costs associated with the equipment and personnel. All hourly manpower rates shall include the cost of protective clothing, including hard hats and steel toed boots, fringe benefits, hand tools, supervision, transportation and any other costs. The activating county may terminate the equipment rental work at any time.

There shall not be a minimum number of hours guaranteed for use of rental equipment for initial emergency clearing of roads, streets, and public rights of way. The contractor will be reimbursed for the cost of equipment rental based on number of verified hours worked, not to exceed 70 hours per piece of equipment or worker for this initial emergency period.

## **REPORTING REQUIREMENTS**

The debris removal services contractor shall be required to keep complete and accurate records of all activities as set out in these bid specifications. Load tickets shall be used for all debris removal and disposal activities and daily reports shall be filed as set out herein.

### **Debris Removal Site Documentation**

The debris removal services contractor shall document conditions at all debris removal locations prior to beginning work at the area. Documentation shall include photographs and/or video tape of the location. Additionally, the contractor shall document with photographs and/or video tape all items left at a debris removal location at the time the contractor leaves the area.

### **Load Tickets**

The debris removal services contractor shall utilize load tickets for recording the cubic yard volume of debris removed from a debris removal location. Any item paid by weight shall indicate tare and gross weight for the load. Load tickets to be utilized shall be submitted to the activating county for approval prior to beginning work on a project.

The load ticket shall be sequentially numbered with a minimum of four-parts and shall contain the following information:

- (1) Ticket Number
- (2) Contractor Name
- (3) Sub-Contractor Name
- (4) Date
- (5) Truck or Roll-off Number
- (6) Truck Capacity
- (7) Point of Debris Collection
- (8) Point of Debris Disposal
- (9) Loading Departure Time
- (10) Disposal Site Arrival Time
- (11) Percent of Load
- (12) Actual Debris Volume
- (13) Debris Eligibility
- (14) Debris Classification
- (15) Tare and gross weight, where applicable

Designated personnel from the activating county or debris monitoring services contractor shall distribute load tickets to the debris removal services contractor prior to transportation of debris from the debris removal location after verifying the hauler and equipment, type of debris to be collected, percentage of truck capacity, and the actual cubic yards of eligible debris. The original load ticket shall be retained by the designated county personnel or debris monitor contractor at the primary debris management disposal site and the remaining copies shall be distributed as follows:

- (1) One part to the designated county personnel or debris removal monitor at the loading site
- (2) One part to the designated county personnel or debris removal monitor at the debris management site/disposal site upon arrival of the hauling equipment
- (3) One part to the hauler when exiting the debris management site after unloading debris

All load tickets shall be submitted with the debris removal services contractor's daily report.

### **Daily Reporting**

The debris removal services contractor shall submit a daily report to the activating county throughout the length of the project utilizing the Daily Haul Record provided for that purpose. Each report shall contain, at a minimum, the following information:

- (1) Contractor's Name and Contract Number
- (2) Daily and cumulative totals of debris hauled to each identified volume reduction site
- (3) Daily and cumulative totals of debris hauled to identified permitted landfills
- (4) Daily and cumulative totals of debris processed at a disposal site
- (5) Type of debris hauled

Discrepancies between the daily report and corresponding load tickets shall be reconciled no later than the following day after the discrepancy is identified.

### **BONDING AND INSURANCE**

All bidders shall provide adequate documentation to demonstrate ability to satisfy the following requirements related to insurance, bonding, and payment of liquidated damages:

#### **General and Professional Liability Insurance**

The debris removal services contractor shall maintain such general and professional liability insurance as will protect the contractor and any activating county from any claims for workmen's compensation and from claims for damage and/or personal injury, including death, which may arise from operations under the regional contract executed. Such insurance shall also cover any financial loss to the activating county as a result of the denial of AEMA, FEMA, and FHWA reimbursement due to the errors and/or negligence of the debris removal services contractor. Such insurance shall be written by companies authorized to do business in Alabama.

Proof of insurance with the following minimum coverage shall be included with each bid submitted by the debris removal services contractor:

#### General Liability:

- \$1,000,000 - Bodily injury and property damage combined occurrence
- \$1,000,000 - Bodily injury and property damage combined aggregate
- \$1,000,000 - Personal injury aggregate

#### Automobile Liability:

- \$1,000,000 - Bodily injury and property damage combined coverage
- Any automobile including hired and non-owned vehicles

Statutory Workers Compensation as required under Alabama law

#### Employers Liability:

- \$100,000 - Limit each occurrence

#### Umbrella Coverage:

- \$1,000,000 - Each occurrence
- \$1,000,000 - Aggregate

### **Payment and Performance Bond**

The debris removal services contractor shall also be required to execute a payment and performance bond equal to 100% of the estimated cost of a project conducted on behalf of any activating county upon receipt of a Notice to Proceed. All bidders shall include in their bid proof of ability to secure such payment and performance bond as evidenced by letter of credit from a bank in the state of Alabama holding deposits for the bidder's company or a statement from a surety company satisfactory to demonstrate the bidder's ability to secure such bond in the event required due to activation by one or more of the counties included in the regional contract executed with the successful bidder.

Additionally, the debris removal services contractor shall be required to post a contractual payment and performance bond in the amount of \$1,000,000 at the time of execution of the contract between the awarding authority and the successful bidder/debris removal services contractor. This bond shall be made payable to the awarding authority on behalf of the counties in the region and shall be called in on behalf of a county sending the debris removal services contractor a Notice to Proceed in the event the debris removal services contractor fails to execute the above-referenced performance bond required upon receipt of a Notice of Proceed or fails to satisfy any other obligations under the contract. This requirement is in addition to the requirement to post the payment and performance bond required herein. **Each bidder must provide proof of his or her ability to secure this bond at the time of execution of the contract if he or she is determined to be the lowest responsible bidder meeting bid specifications.**

### **PRICING AND PAYMENT PROCEDURES**

The bidder shall include his or her bid pricing schedule on the attached Bid Submittal Form based on all categories of work. Except where otherwise specifically provided, all pricing will be unit pricing. Some bid items or activities will have special rules as set out below:

- (1) The removal, pickup and disposal of stumps will be paid on the cubic yard basis, regardless of size or whether or not the stumps require extraction by the contractor
- (2) Payment for the construction of the hazardous household waste containment area and for the removal and disposal of such waste shall be included in the unit price for hazardous household waste removal and disposal
- (3) The bid price for waterway debris removal shall include the additional labor and equipment costs required to retrieve the debris from the waterway<sup>1</sup>
- (4) Payment for portable restroom facilities and payment for containment towers shall be included in the line items for Vegetative Debris Removal and Construction & Demolition Debris Removal
- (5) Payment for the preparation and operation of all vegetative debris management sites shall be included in the unit price for removal and disposal of eligible vegetative debris
- (6) Debris stockpiled at a debris reduction site prior to a "No Burn" order shall be paid at the unit price for open burning
- (7) Removal and recycling of freon from appliances and disposal of white goods shall be paid at the unit price for Freon Recovery and Recycling

---

<sup>1</sup> An example of this would be C&D material collected from a canal. The collection would be measured in cubic yards and paid for under the bid schedule item for Waterway Debris Removal. The disposal of the C&D material would then be processed and paid for under the Removal and Disposal of Eligible C&D debris to an eligible Landfill, per ton.

Additionally, as noted throughout these bid specifications, the successful bidder/debris removal services contractor shall be responsible for the payment of all permits, landfill fees, equipment rental fees, and any other costs required to perform the services included in these bid specifications. All such costs shall be considered by the bidder in establishing the bid prices submitted.

All bids will be evaluated utilizing a bid pricing scoring sheet that will be available to all bidders and interested parties beginning at 10:30 a.m. on Thursday, September 6, 2018 immediately following the bid opening for each of the regional bids. This scoring sheet will be posted on the Association's website ([www.alabamacounties.org](http://www.alabamacounties.org)) immediately following the bid opening.

The activating county shall determine at the outset of the contract when the billing cycle for contract payments will begin – either on the contract activation date or date of disaster declaration. The debris removal services contractor shall be expected to mobilize and sustain its workforce in all activating counties in a region for a period of 90 days prior to any reimbursement by an activating county. An activating county may agree to reimburse the debris removal services contractor within a shorter time frame, but shall not be contractually required to make any payments in less than 90 days. After the initial 90 day period expires, the contractor shall be entitled to payment for the first 30 days of work performed by the contractor in an activating county after the Notice to Proceed provided the contractor has satisfactorily performed the functions required under the contract. The activating county shall have sole discretion in determining whether the work has been performed to its satisfaction. An example of the payment schedule is listed below:

- Notice to Proceed
- Debris removal services contractor reports to activating county within 24 hours of notice
- Debris removal services contractor submits bill to activating county for first 30 day period within one week of the end of the first 30 day period with same procedure for subsequent 30 day periods during the project
- At the end of the third 30 day period, the county remits payment for the first 30 day period if satisfactory work has been performed
- Process continues until work is completed and all payments have been made

All bids shall include a statement acknowledging and accepting these terms.

Payment for work completed may be invoiced on a monthly basis after the initial 90 day period from issuance of the Notice to Proceed. Invoices shall be based on reconciled load tickets from the daily reports. All payments will be based on unit pricing submitted by the contractor.

The debris removal services contractor shall be expected to work diligently and efficiently to complete the debris removal and disposal project in any activating county in the shortest time possible. The activating county may withhold payments not to exceed 10% of the project value when satisfactory progress has not been achieved by the contractor during any period for which a payment is due. Additionally, the activating county shall recover from the contractor any delay costs caused by the acts or omissions of the contractor or his or her agents.

The activating county may also withhold payment or final payment for reasons including, but not limited to the following:

- (1) unsatisfactory job performance or progress
- (2) defective or disputed work
- (3) failure to comply with material provisions of the contract
- (4) third party claims filed
- (5) damage to the activating county's right of way or other county-maintained properties
- (6) reasonable evidence that a claim will be filed

Final payment, less any offsets or deductions authorized hereunder or by law, shall be made within 90 days of the certification of completion of the project by the activating county, provided the debris removal services contractor has filed all contractually required documents and certifications with the activating county, including acceptable evidence of the satisfaction of all claims or liens.
