

Elite

Secure Ultra

deposition aid/drift retardant for pesticide sprays

Specimen Label

PRINCIPAL FUNCTIONING AGENTS:

Polymers and other active ingredients.....	35%
Ingredients ineffective as spray adjuvants.....	65%
TOTAL.....	100%

All ingredients are exempt from tolerance requirements as specified in federal regulation 40 CFR 180.

DO NOT FREEZE

**KEEP OUT OF REACH OF CHILDREN
WARNING**

Causes skin irritation.

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

Keep out of reach of children. Read label before use. Keep container tightly closed. Keep only in original container. Avoid breathing dust, fume, gas, mist, vapors or spray. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves, protective clothing, eye protection and face protection.

SLIPPERY WHEN WET

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. If eye irritation persists: Get medical advice or attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. If skin irritation occurs: Get medical advice or attention.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

GENERAL INFORMATION

SECURE ULTRA is an effective, easy-to-use adjuvant, for deposition improvement, and drift retardation in spraying operations. SECURE ULTRA is designed for general use in standard ground and aerial applications, and is fully compatible with a wide variety of spray configurations, including those with new A.I. and other specialized drift reduction nozzles. Further, SECURE ULTRA is compatible in tank mix applications with a broad spectrum of crop protection pesticides, including the complete range of all branded and generic glyphosate formulations.

DIRECTIONS FOR USE

Dosages may be adjusted to compensate for environmental conditions or mechanical factors. Lower dosages may be used when spraying under calm winds, slow application speeds, low pressures, and lower boom heights with nozzles closer to the target. The greater the shear on the spray boom nozzle head, the greater the spray droplet fragmentation, which produces fines (mists) that may drift to non-targeted areas or evaporate. For best results in aerial application, use state-of-the-art techniques, such as pressure less than 45 psi and nozzles oriented 45 degrees back to straight back.

SECURE ULTRA may be used with aquatic pesticides and in or near water.

DOSEAGE CHART

Spray Pressure	Nozzle Orientation	SECURE ULTRA DOSAGE
Aerial applied below 45 psi	Straight Back	2 - 6 oz/ 100 gals
	45° Angle Back	4 - 8 oz/ 100 gals
GROUND APPLICATION Low (below 30 psi)	Flat Fan, Flooding Off-Center	1 - 4 oz/ 100 gals 3 - 5 oz/ 100 gals
	Medium (30 - 50 psi)	Flat Fan, Flooding Off-Center
Spray Guns		5 - 8 oz/ 100 gals
High (over 50 psi)		Spray Guns

Higher spray pressure or greater agitation requires higher rates to maintain good drift control. If unacceptable drift is still occurring, add additional SECURE ULTRA in increments of 1 oz per 100 gal of spray solution.

MIXING

SECURE ULTRA is very concentrated, and performs effectively at ultra-low use rates, even as low as 1-4 oz per 100 gal of water. Start with low dosage rates and increase as needed. A thickened or "stringy" solution indicates, that too much SECURE ULTRA has been used.

Step 1: Select proper dosage for the spraying operation.

Step 2: Fill mix tank with water, pesticide, fertilizer, surfactant/ additives and agitate.

Step 3: Shake bottle well before using.

Step 4: For best mixing results, either (1) inject SECURE ULTRA liquid into the suction side of the feeder or recirculating pump to obtain adequate dispersion of the polymer throughout the pesticide solution, or (2) slowly add SECURE ULTRA liquid to the agitating tank mix at the area of highest turbulence.

Step 5: Continue to agitate mix tank for at least 3 minutes before spraying.

Step 6: Follow all cleanup precautions on label of pesticide used. Follow governmental procedures for disposal of pesticide spray solution.

STORAGE AND DISPOSAL

PROTECT FROM FREEZING.

STORAGE: Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all federal, state and local regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

WARRANTY

Red River warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to the label instruction, or any abnormal conditions, or under conditions not reasonably foreseeable to Red River, and buyer assumes the risk of any such use.
