

Etowah County Engineer

With the planned retirement of its long-time County Engineer, the Etowah County Commission seeks a highly qualified technical and people professional to lead the County's Engineering & Roads Department.

The role performs highly responsible and diversified professional engineering, leadership and management work in planning, directing, monitoring and controlling the functions of the County Engineering & Roads Department: Bridge and road engineering, maintenance and repair; department and county-wide mechanical equipment maintenance and repair; and, the sign shop.

Salary is negotiable considering the individual's qualifications and capabilities.

The incumbent will be required to reside in Etowah County, within six months of appointment.

The full position description along with a copy of the application may be found on the County's website:

<https://etowahcounty.org/department/personnel/>

Please deliver, mail or email your application, resume and letter of introduction by July 23, 2021 to:

Jeff Little, Personnel Director
Etowah County Commission
Suite 207
800 Forrest Avenue
Gadsden, AL 35901
