

Court-Ordered Community Service / Inmate Work Release Insurance

What is this coverage for?

An Accidental Death & Dismemberment + Medical Expense policy provides coverage if an offender is injured, killed, and/or dismembered while performing duties which are assigned by the Sheriff, County, or Court.

Coverage can be tailored to persons who are fulfilling court-ordered community service requirements, or trustees of the jail who are permitted to work within the community.

For policies tailored to court-ordered community service, some courts build an "insurance fee" into the court costs; this assists in paying for the cost of the insurance policy.

Claim Examples:

Example 1:

Two teens are fulfilling their court-ordered community service hours by picking up trash on a local highway. Suddenly, a truck veers onto the shoulder, striking both of them. One teen is killed and the other is critically injured.

Example 2:

A trustee is clearing brush at a local park, he reaches down to pick up a branch when he is bit by a rattlesnake.

The Sheriff or County can reduce their liability exposure by purchasing an Accidental Death & Dismemberment + Medical Expense policy. Benefits are paid when an eligible person is injured, killed, and/or dismembered while performing acts within the scope of their county-assigned duties.
