# ACT #2022-202

- ❖ Signed by Governor Ivey on April 1, 2022
- ❖ Expands definition of “real and present danger” to include the risk that the individual may “cause, allow, or inflict serious bodily harm upon himself, herself or another individual... ..or be unable to satisfy his or her need for nourishment, medical care, shelter, or self-protection so that there is a substantial likelihood of death, serious bodily harm, serious physical debilitation, serious mental debilitation, or life-threatening disease”
