

Association of County Commissions of Alabama

2023 DISTRICT MEETINGS

The 2023 Legislative Session will begin March 7, and an important part of our preparation for the Session is the District Meetings. The District Meetings help us prepare as a County Family to advocate for legislation that would be positive for counties and work against legislation that would hurt county government.

During the meetings, the ACCA staff will report to you on the expectations for the 2023 Legislative Session as well as a number of other policy matters impacting your county. It is important to note that ACCA is the only voice for county government in Alabama, and the success of the Association is directly linked to the level of participation by the membership. It is therefore essential that every member of the County Family take an active role in the legislative process so that counties can speak with a strong, unified voice.

All meetings will begin at 6 p.m., and the cost for each meeting will be \$25 per person. County Family members are encouraged to select the meeting that best fits within their schedule and to **register online at www.alabamacounties.org**. Directions to each meeting location will be emailed a week in advance of the meeting date.

January 24

Cook Museum, Decatur
(Morgan County)
