

ESCAMBIA COUNTY COMMISSION
JOB ANNOUNCEMENT

COUNTY ENGINEER

JOB SUMMARY: The County Engineer performs highly responsible and diversified professional engineering work, providing oversight, management and supervision for all department personnel and engineering operations. Responsibilities range from establishing departmental goals and priorities in conjunction with the County Commission, to planning and implementing engineering projects, managing the departmental budget and personnel matters, and ensuring that all projects and functions fall within established parameters and mandates. The County Engineer advises on priorities, materials, equipment and projects to be undertaken by the County Commission. The County Engineer administers and manages projects involving state and federal funds and works with appropriate governmental agencies to ensure compliance with applicable regulations and laws.

SKILLS/ABILITIES: Bachelor's degree in civil engineering from an accredited college or university and licensure as a Professional Engineer in Alabama required. Five years of professional work experience as a civil engineer in road/bridge maintenance and construction desired. Certified National Bridge Inspection Standards (NBIS) Bridge Inspector desired. Current and valid driver's license. Ability to travel overnight for meetings. Ability to work non-standard hours, weekends, or emergencies.

This is a professional, full-time position and is exempt from overtime. Salary commensurate with licensing and experience

APPLY IMMEDIATELY.

Date of Announcement: Wednesday, March 8, 2023.

Mail application to:
