### GENERAL INFORMATION

NOVITA MSO is an oil-based spray adjuvant, designed for use with pesticides that suggest or require the use of an oil adjuvant. NOVITA MSO has been shown to boost the performance of products such as 2,4-D esters, SU's and many other products where the use of an oil adjuvant is advised. NOVITA MSO can be especially helpful wherever weeds have become large, have thick, waxy coatings or are otherwise under stress. NOVITA MSO is used on agricultural crops, in forestry applications, in industrial and R.O.W. settings, in pasture and rangeland areas and in T&O or in any non-aquatic application.
